

Apollo Memo-Pad Plus

Static Low Profile Cushion with Optional Coccyx Cut Out

The **Memo-Pad Plus** cushion is designed to provide maximum pressure relief to this **Very High Risk** area of the body that is vulnerable to developing pressure ulcers or a seated individual that has up to a Category / Grade 4 ulcer present.

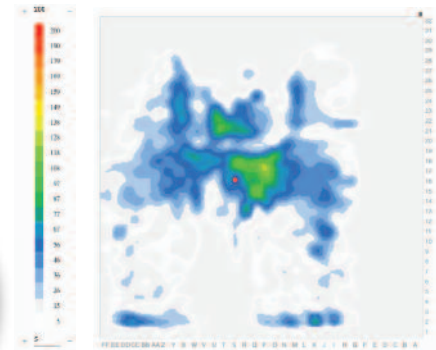

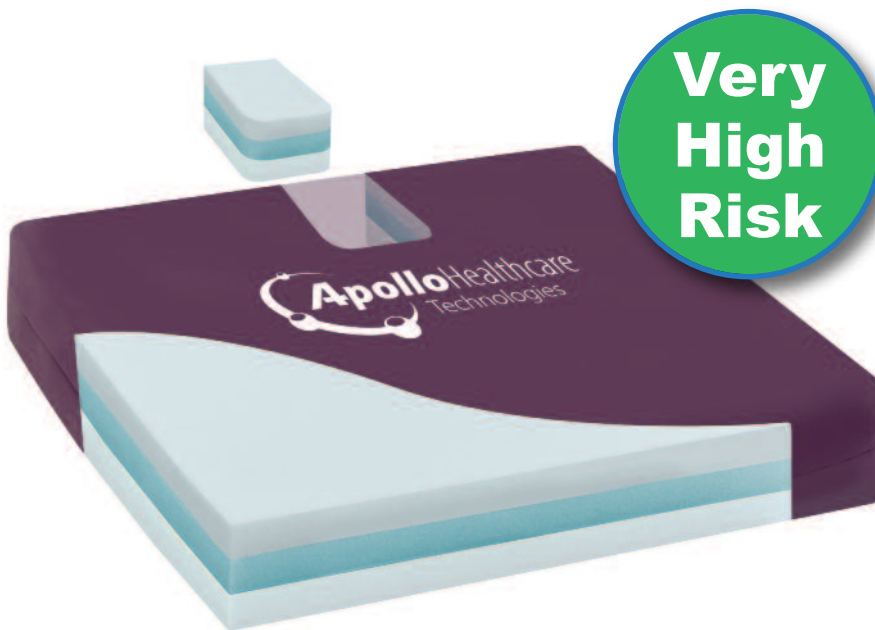

It is made up of three foam layers, this ensures a stable support surface for the seated individual. The Visco layer contours itself to the sacral and buttocks area offering immersion.

- 1 White Base Layer** - ensuring a stable foundation for the seated individual.
- 2 Blue Visco Middle Layer** - contours itself to the sacral and buttocks area offering immersion.
- 3 White Visco Top Surface** - offering immersion to the sacral and buttocks area.
- 4 The coccyx area of the cushion is removable to enable individuals to be totally pressure free.** The breathable multi-stretch cover meets infection control standards having welded seams and a covered zip reducing any risk of ingress of fluid. A simple wipe down with a non-phenolic cleaning fluid will decontaminate the cushion.

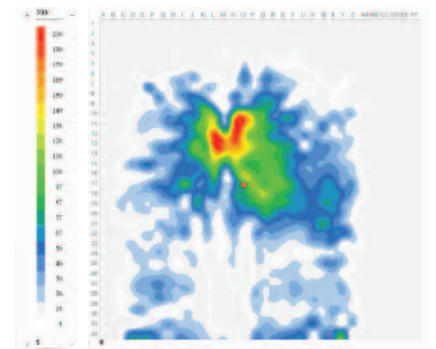

- High specification foam contributes to an effective pressure ulcer prevention plan
- The waterproof, vapour permeable cover can be easily wiped clean
- Cover is impregnated with an acti-fresh biocide to help prevent the build-up of bacteria
- Smooth multi-stretch cover allows effective immersion
- High frequency welded seams reduce the risk of fluid ingress
- Welded cover with concealed zip can be removed and laundered at 95°C
- Available in bespoke sizes
