Apollo Morpheus Recline Cushion System

Very High Risk

Designed & Developed for Reclining Chairs

www.apollo-ht.co.uk

The Apollo Healthcare **Morpheus Recline Cushion System** has been specifically developed for use with reclining chairs. It is designed to provide enhanced pressure distribution and relief to existing chair cushions, without compromising the patient's posture. The cushion can be easily expanded to include leg, back and arm sections providing high pressure reducing distribution and with the additional options for the Coccyx and Vertebral relief becomes a Very High Risk system offering offloading for the most vulnerable parts of the body.
